Tools: MS Office Suite (Excel, Word, PowerPoint), Git, GitHub, Google Workspace

CORE COMPETENCIES

Communication: Verbal and written communication, Presentation skills
Leadership & Management: Team coordination, Event planning, Budget management
Business Skills: Problem solving, Analytical thinking, Stakeholder management
Interpersonal: Customer service, Active listening, Collaboration

ACHIEVEMENTS OR EXTRACURRICULAR ACTIVITIES

Operations Manager
Google Developer Groups on Campus (GDGC) - MLRIT

- Planned and executed workshops, hackathons, and training programs in collaboration with Google experts.
- Oversaw operations for a 200+ member student developer community.

Logistics & Management Head
Club Literati - MLRIT

- Led operations for TEDxMLRIT 2024 with 1000+ attendees and managed the entire event budget.
- Coordinated MLRIT Model United Nations with 800+ delegates.
- Mentored 100+ students in effective communication workshops.

KEY PROJECTS

Event Management System

- Developed platform for event registration and attendee management for 1000+ users.
- Build and Deployed with Vercel for optimized performance and secure authentication.

Anomaly Detection in Network Traffic Using Advanced Machine Learning Techniques

- Proposed a self-supervised contrastive learning framework to overcome limitations of traditional anomaly detection (false positives, reliance on labeled data, poor zero-day detection).
- Designed a dual-branch autoencoder architecture (temporal + content) to capture communication patterns and traffic features, improving detection accuracy and scalability.
- Implemented using Python, TensorFlow/PyTorch, Pandas, NumPy
